On average for most vehicles, the cost for the parts involved in the replacement of the coolant temperature sensor is from \$55 to \$80. However, the lower end of the coolant temperature sensor price is as little as \$36, while the higher end of the coolant temperature sensor parts price is as much as \$90.

## **Symptoms of a Failed Engine Coolant Temperature Sensor ...**

The coolant sensor is an electronic piece that measures the level of coolant in the radiator. This sensor measures the level of coolant inside the radiator when it is cool; as warm or hot radiator fluid will expand as it heats. When the sensor works properly, it will illuminate on the dashboard or trigger a check engine code to be displayed.
