### **Fake Negative Std Test Results**

About These Fake Tests What is a STD or STI test? There are different tests for different sexually transmitted diseases. A STD test will return either a positive or negative result, depending on the presence of the particular disease. Some tests require a blood sample to be collected. Others require a urine sample, or a swab.

### **Free Fake STD Test Results - The #1 Free Fake STD Test ...**

A false positive result is when a test says that a person has a disease when they do not. Conversely, a false negative result is when a test says a person does not have a disease when they actually are infected. Because STD tests aren't perfect, people who design them often have to choose whether it's better to have more false positive or more false negative tests.
