Hi all, I was looking for a service/programming manual for a York Air Modulator VSD M# AM09-20-CM or AYK 550. I haven't been to the jobsite yet but if I remember correctly these drives are made by ABB for York. I found the big 456 page manual on ABB's website M# ACH 550 with all the info I need. Does anyone know if I'm right in assuming that these are the exact same unit?
